## Frontend Developer Internship

📞 0387804055 📩 leminhquy737@gmail.com 🌐 <https://www.facebook.com/LeeWuys> 🗺 Quận Bình Thạnh, TP. HCM

### SUMMARY

Senior student majoring in **Software Engineer** at HCMC University of Technology. A proactive and responsible individual with a strong willingness to learn. Currently seeking for an internship in Frontend developer to apply academic knowledge in practice, gain hands-on experience, and steadily build stronger expertise in **Software Development** field within the next 3-5 years.

### EDUCATION

#### Bachelor's Degree in Software Engineering

Oct 2022 - Present

Ho Chi Minh City University of Technology

- Culmulative GPA: 3.44/4.00

#### Achievements:

- Received the Outstanding Student Award (Second Semester, 2023)

### PROJECTS

#### Project Management System (Jira/Notion inspired)

Oct 2025 - Dec 2026

#### Frontend Developer

**Description:** A project management platform inspired by Jira/Notion, featuring dynamic Kanban boards, charts, and seamless collaboration tools.

- Implemented native **Drag & Drop API** and **Optimistic UI** updates for a smooth, desktop-like experience using Tailwind CSS.
- Developed robust rendering logic for complex components, including multi-tab modals and interactive dashboards (Chart.js).
- Engineered a custom **JWT Authentication** system and handled complex asynchronous data synchronization for Burn-down charts and Gantt views.

**Github:** <https://github.com/mquy27/ProjectManagement>

**Tech stacks:** HTML, TailwindCSS, JavaScript, C#, SQL Server, .Net Core.

#### Personal Portfolio

Jan 2026 - Present

#### Frontend Developer

**Description:** A highly interactive, mobile-first portfolio built to showcase frontend capabilities and UI/UX design thinking.

- Architected a responsive layout utilizing **React, Vite, and Tailwind CSS**, featuring custom noise textures and CSS gradients.
- Implemented advanced, fluid web animations and parallax scrolling effects using **Framer Motion** and **GSAP**.

**Github:** <https://github.com/mquy27/PortfolioV2>

**Live Demo:** <https://mquysportfolio.vercel.app>

**Tech stacks:** React, JavaScript, HTML5, TailwindCSS.

#### Kim Kỳ Ceramic

Feb 2026 - Present

#### Frontend Developer, UX/UI Designer

**Description:** A high-end e-commerce showcase featuring modern UI/UX architecture and headless CMS integration.

- Prototyped a cohesive design system in **Figma** and translated it into a pixel-perfect frontend.
- Architected a dynamic 'Page Builder' using **Sanity CMS** and **GROQ**, empowering non-technical editors to create magazine-style layouts.
- Elevated the brand's identity with native-like mobile interactions (CSS Scroll Snap, Bento Grid) and sophisticated micro-interactions via **Framer Motion**.
- Optimized application performance and technical SEO utilizing **Next.js Server Components**, URL state management, and automated JSON-LD markup.

**Tech stacks:** Next.js, TailwindCSS, TypeScript, Sanity CMS, Figma.
